FOR IMMEDIATE RELEASE

**Breakfield & Burkey Announce Latest Thriller
in Award-Winning Series: *The Enigma Dragon***

Dallas authors mixing technology and suspense with publication of ninth book

(Dallas, TX. October 13, 2017). Charles Breakfield and Rox Burkey were colleagues at a Dallas IT company when they first came up with the idea of writing fiction together. The technologists, and self-professed “geeks,” are now taking fans on a new thrill ride with *The Enigma Dragon*. The book is the ninth installment in their popular *Enigma Series* - the 1st place winner in the 2017 Texas Author Awards in the category of “techno thriller” and will be available Nov. 5.

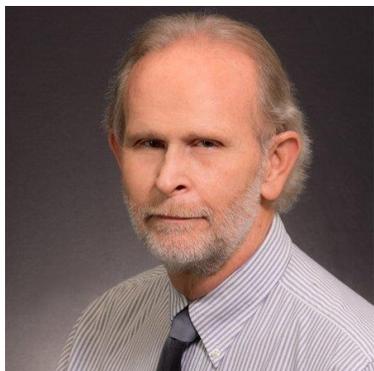

Rox Burkey

With more than 140 colorful characters and a Supercomputer named ICABOD, *The Enigma Series* weaves technology into suspenseful story lines with exotic locations, romance and humor.

Burkey says “Our stories take a look at what could realistically happen in the cyber world if technology became our adversary - with a little James Bond mixed in.”

In addition to the Texas Author Awards, the series has been honored in 2017 with the Reader’s Favorite and Literary Titan Awards. A short story by the duo, *The Enigma Chronicles Remember the Future*, was recently chosen for inclusion in the *2017 Short Stories by Texas Authors*. The book, published by the Texas Author’s Association, celebrates the talent of local writers in a variety of genres.

Charles Breakfield

In *The Enigma Dragon*, the authors take on what happens to non-digital communications in today’s world of technology dependency. As “good guy” Cyber Assassin Technology Services (CATS) operatives are called upon to handle calls for help when I.T. systems shut down worldwide, the team

discovers the use of analog information being used by criminals. What ensues is a game of cat and mouse with cyber assassins from the Dark Web with a surprise ending.

The first edition in the series was *The Enigma Factor*, followed by *Enigma Rising*, *The Enigma Ignite*, *The Enigma Wraith*, *The Enigma Stolen*, *The Enigma Always*, *The Enigma Gamers* and *The Enigma Broker*.

Online reviews are calling the books, "The smartest book I have read in a long time. It will open your eyes to things going on that you never thought about" and "If you're into the computer/tech world, you will especially love this story, but even a non tech-savvy person, like me, found it a great read."

In their day jobs, Charles Breakfield has over 25+ years of experience in security, networking, voice and "anything with bits and bytes," he says. Rox Burkey has 25+ years applied technology experience and excels at optimizing technology and business investments for global customers.

For more information on The Enigma Series, visit www.enigmabookseries.com. Paperback, EBooks and Audible versions are now available on Amazon.com and other online stores. The Enigma Dragon will be available October 1st on Amazon.
